30 lb x 0.002 lb / 15 kg x 0.001 kg
- **Display**– Fast and easy-to-read 0.6" / 15 mm high red LED display with easy-to-see low, ok and high annunciators
- **Power**– AC adapter with built-in rechargeable battery with up to 62 hours of battery life between charges
- **Platform Dimension (L x W)**–
7.4" x 10" / 190 mm x 255 mm

C3236 Washdown Check Weigher

Features

The C3236 is a fully washdown, stainless steel scale ideal for most general purpose weighing, check weighing or portion control applications. Designed for speed and efficiency with limited operator training required, the C3236 is ideal for applications where food preparation or portion control accuracy is essential.

Construction: With a food grade 304 stainless steel housing and top pan and IP68 (NEMA4X) water ingress protection, this scale is easy-to-clean and ideal for use in most washdown environments.

General Weighing Mode: The clear, easy-to-read display allows operators to quickly and easily view weight data before pressing tare between ingredients.

Check Weighing Mode: Ideal for repetitive weighing applications. It can easily be set so the operator can quickly tell if the weight is within a known tolerance with the low, accept, high annunciators and audio alarm.

Operator Keys: Four easy-to-use keys make the scale easy to set up with minimal training requirements.

The C3236 comes standard with a detachable AC power adapter and a built-in rechargeable battery that provides up to 62 hours of battery life between charges. The built-in auto off feature helps prolong battery life when not in use.
